

REMOTE MONITORING

- Strategic surveillance
- Incidence collation & analysis
- Voice-over IP
- Dedicated or event-driven monitoring

Keeping a watchful eye on your assets

THE HEART OF THE OPERATION

"Our state-of-the-art National Remote Monitoring Centre has changed the way in which security services are delivered across the country today."

Off-site monitoring of:

- CCTV
- Alarms
- Electric fence
- Security personnel
- Virtual patrols
- Gate automation
- Cold storage facilities (temperature)
- Vehicle tracking
- Off-premises recording of incidents
- Activation of lights, alarm systems, pepper or smoke canisters

Benefits:

- ✓ Centralized management of multiple premises
- ✓ Pro-active response
- ✓ Eliminates false alarms through visual verification
- ✓ Evidential quality video & audio recording
- ✓ Voice-over warnings
- ✓ Cost reduction (replaces manned guarding)
- ✓ Reduces risk of human vulnerability or collusion

Your premises are in the safe hands of our skilled & experienced Operators

**We worry about security . . .
So you don't have to**
