

Mobile Command Unit

Our Control Room on wheels

THE PERFECT MOBILE SURVEILLANCE PLATFORM

The ease of a fully mobile Control Centre, anywhere, anytime!

The rapid-to-deploy mobile surveillance unit provides ultimate mobility

Complete with enhanced CCTV features, dial-in facilities, server backup, high level surveillance and review screens.

The unit is equipped with enhanced safety features through a panic system and a combination of power supply, including battery power supply of at least six hours!

- **Dome camera on an external telescopic mast**
- **Internal and external cameras**
- **Multi-power options**
- **Air-conditioned**
- **Standalone number plate recognition camera backed by software which integrates with SAP software**
- **Drone helicopter fitted with long range camera**

Perfect for events or for deployment at high-risk areas not covered by CCTV

The Mobile Command Unit bolsters the existing Thorburn Special Operations capabilities and is utilised during special observation operations, stop and search operations, special events, labour or community related activity, monitoring, and as a back up to existing security operations.
