

# SPECIALISED TRAINING

Holistic service offering. Tailored solution. Expert delivery.

Conducting business or travelling in politically volatile areas or rural environments with strained critical infrastructure can be fraught with risk. Our Specialised Training department combines expert knowledge with extensive Africa experience to provide a range of specialised training courses that equip private individuals, corporates and governments for these challenges.

## THE SOLUTIONS

We offer the following specialised training courses:

### CORPORATES

Training programmes developed for persons travelling or working in remote areas or potentially hostile environments including journalists, geologists, bush pilots and other interested parties:

- **Basic Rural Survival**  
Knowledge and skills to travel through or stay in rural environments with strained critical infrastructure.
- **Hostile Environment Awareness Training (HEAT)**  
Knowledge and skills to identify, prepare for, respond to, and recover from potential emergency situations when conducting business or travel in potentially hostile environments.
- **Escape and Evasion**  
Basic skills required to escape and evade hostile forces as a non-combatant in a remote environment with strained critical infrastructure.
- **Active Shooter Scenario**  
Knowledge and skills to identify, prepare for, respond to, and recover from an active shooter situation.

### PRIVATE INDIVIDUALS

Training programmes developed for persons traveling or living in high risk areas including farmers, response officers and medical first responders:

- **Personal Safety Awareness**
- **Rural First Responder**  
Required skills to enhance survivability, effecting arrests and maintain the integrity of a crime scene.
- **Firearms Training**

### GOVERNMENTS

A range of unique specialist defence and homeland security training courses developed for governments and international agencies.

## THE BENEFITS
